

Dura-Skrim®

Diagonal Scrim Reinforced Polyethylene

DURA-SKRIM® R Series products are manufactured using outer layers of high-strength polyethylene and bonding layer(s) of molten polyethylene. Diagonal polyester scrim reinforcement is placed between these plies to greatly enhance tear resistance and increase service life. This results in a strong, light-weight construction that is excellent for use as a cover or liner in many conditions. The Dura-Skrim Series is manufactured in panels up to 90,000 square feet. Thickness ranges from 6 mil up to 20 mil. Super stabilized Dura-Skrim covers, meeting GRI-GM22 standard specifications, are also available for exposed application requiring a life expectancy of 5 years or more.

Fire Retardant Four-Layer Reinforced Laminate

DURA♦SKRIM® 2FR and 10FR consist of two sheets of highstrength fire-retardant virgin film laminated together with a third layer of molten polyethylene. A heavy-duty scrim reinforcement placed between these plies greatly enhances tear resistance and increases service life. DURA♦SKRIM's fire-retardant films meet or exceed NFPA's 701 test, method 2 (Large Scale Requirements). DURA♦SKRIM® 2FR and 10FR are available in a variety of widths and lengths. Panel sizes up to 40,000 square feet are available. All panels are accordion folded and tightly rolled on a heavy-duty core for ease of handling and time saving installation.

DURA♦SKRIM® 10HUV is used in applications that require good outdoor life and demand high puncture and tear strengths. The two outer layers of DURA♦SKRIM® 10HUV contain high concentrations of UV inhibitors and thermal stabilizers to assure added outdoor life up to approximately one year.

DURA♦SKRIM® 2 standard sizes are 6, 8, 10, 12, 16, 20, 24, 32 and 40 feet wide and 100 feet long. DURA♦SKRIM® 10HUV is available in a variety of widths and lengths up to 100,000 square foot panels. All panels are accordion folded and tightly rolled on a heavy-duty core for ease of handling and time saving installation. Custom sizes are available.

Stock Sizes of DURA-SKRIM® 2 Clear 6 Mil - 20' x 100' and 40' x 100'

Erosion Control , Liners, Geotextil es, BMP's & SWPPP's
