

Profile Products

For Erosion & Sediment Control

Hydromulches

EcoMatrix™
Stabilized Fiber Matrix

EcoFibre
Premium Wood Fiber Mulch

EcoBlend™
Wood Fiber/Cellulose Fiber

EcoAegis
Bonded Fiber Matrix

Flexterra®
CocoFlex™ ET-FGM

Flexterra® and CocoFlex™ — Flexible Growth Medium (FGM) is designed with crimped interlocking man-made fibers and additives that are engineered to perform under extreme conditions. Providing superior protection for up to two years, making it the highest performing, longest-lasting hydraulically applied erosion control product on the market.

Soil Stabilization Granules

Seed Aide® and Seed Aide® Aero™ may be applied dry or hydraulically, making it a versatile and cost-effective solution where conventional erosion control equipment access is limited or unavailable, or for small-scale jobs using jet-agitated hydroseeders.

**SEED AIDE®
AERO™**

Erosion Control Blankets

The Futerra® erosion control and revegetation blankets are a whole new way to look at environmentally friendly, biodegradable blankets. Available with or without netting.

**Futerra®
F4NETLESS™**

**Futerra®
ENVIRONET™**

Wattles with Flocculant

Terra-Tubes® are the industry's most cost-effective storm water treatment device—designed to effectively trap, filter and treat sediment-laden runoff while reducing hydraulic energy.

TERRA-TUBES®
Fiber Filtration Tubes
